

Graduate Internship Opportunity

Piping Engineer/Project Manager

Plymouth, Devon

Salary: £19-25k per annum

Permanent Role

- **The role:**

Pipex Ltd, in partnership with the University of Plymouth's Graduate Internship Programme, is seeking to employ a graduate on a paid internship to start April/May 2011. We are looking for a Piping Engineer/Project Manager to support Pipex Ltd with the project management of the design and build of composite and thermoplastic pipework projects, in line with business aims (profit), business procedures (ISO9001) and customer needs.

- **The person:**

You will be a recent graduate with a minimum of a 2:1 degree in a Mechanical, Marine Technology, Manufacturing, Composites, Materials Engineering related discipline. The successful applicant will be a self starter with plenty of initiative and ideas. The successful candidate must have a desire to work in a specialist, multi-disciplined pipe engineering business and have a proven track record in the design and commercial delivery of process and drainage piping projects in a wide variety of applications. Project management, CAD design competency, commercial contracting, piping survey & site installation experience (i.e. sub-contracts etc) are preferred. Cadworx & Caesar II Stress Analysis pipework engineering experience an advantage. Excellent interpersonal skills and the ability to manage and prioritise time is a key requirement.

- **The company:**

Pipex Limited operate the Pipex Group of companies to provide the design, manufacture and flexible technical support services for the supply and installation of innovative composite and thermoplastic products and systems to construction projects and applications ranging from wastewater to warships and access structures, particularly within the offshore and oil industry. www.pipexlimited.com

- **To apply:**
