

# Graduate Internship Opportunity

## Project Manager X2

Plymouth, Devon  
Salary: £17k - £25k p.a.

(subject to qualifications and experience)

Permanent Role

- **The role:**

Pipex Ltd, in partnership with the Plymouth University's Graduate Internship Programme, is seeking to employ two graduates on a paid internships to start October 2011. We are looking for two Project Managers to join their existing team at Pipex Ltd Head Office in Plymouth.

**Role & Responsibilities:** Principally project management, processing all aspects of client orders to prompt & accurate conclusion including CAD design development & approval, supply chain procurement, commercial documentation and where necessary coordinating site installation works. You will report directly to the Technical Director (Composites) and the Technical Director (Civil Engineering).

- **The person:**

You will be a recent graduate with a minimum of a 2:1 honours degree in a Mechanical, Civil Engineering, Manufacturing, Composites, Materials Engineering related discipline. The successful applicant will be a self starter with plenty of initiative and ideas. We are seeking an individual with the ability to produce CAD drawings, ideally from an engineering/construction background very similar to the markets in which Pipex operates. Previous work experience with a consulting design engineer and/or experience of thermoplastic or composites materials and/or experience of construction products (i.e. pipe and drainage systems or structural systems) would be an advantage. Excellent interpersonal skills and the ability to manage and prioritise time is a key requirement.

- **The company:**

Pipex Limited operate the Pipex Group of companies to provide the design, manufacture and flexible technical support services for the supply and installation of innovative composite and thermoplastic products and systems to construction projects and applications ranging from wastewater to warships and access structures, particularly within the offshore and oil industry.
