ANNUAL SEMINAR & SME TABLE TOP EXHIBITION

Advanced Composites: The Engine for Growth

Growth in terms of the greater use of Advanced Materials and its contribution to the UK economy

Wednesday 27th February 2013

Cranfield University - B52, The Vincent Building

SME Table Top Exhibition Sponsors:

National
Composites
Centre

The annual 1-day SAMPE UK & Ireland Chapter seminar addresses progress in design, materials and manufacturing technologies that are essential to secure continued success for cost effective high performance composites

Key innovators in the Aerospace, Defence, Automobile, Marine and Sports sectors have been invited to make presentations.

The full programme will be featured on the Chapter website: www.sampe.org.uk

Registration documents will also be available on the website.

Sponsored by the National Composites Centre, SAMPE UK & Ireland Chapter will host another Table-Top Exhibition for SMEs who offer innovative technologies and solutions.

Application forms for the SME table tops will be on the website.

This is the fourth SME table top exhibition. The previous exhibitions have been very successful and proved to be great opportunity for delegates to gain information and network
